

	BRICK STRAP					
SECTION 1—	IDENTIFICATION: PRO	DUCT IDEI	NTIFIER AND CHEMICAL IDENTIT	Υ		
Product Identifier		Brick Strap				
Other means of identification		BS				
Recommended use of the chemical and		As a brick edge protection	n strapping.			
restrictions on use						
Details of the manufacturer or			Resitech Resins Pty Ltd			
importer			5 Priority Street WACOL 4076			
•			+61 7 3879 4409			
Emergency phone number			+61 402 428 211			
SECTION 2—	HAZARD(S) IDENTIFICA	NOITA				
This materia	al is not hazardous a	ccording	to the health criteria of Safe	e Work Australia.		
This materia	al is not classified as	dangero	us goods by the criteria of th	ne Australian Code for the		
Transport of	f Dangerous Goods b	y Road	and Rail.			
	COMPOSITION AND IN					
CHEMICAL E	NTITY		CAS NO.	PROPORTION		
High Density Polyethylene (HDPE)			9002-88-4	97%		
Carbon Blac			1333-86-4	3%		
SECTION 4—	FIRST AID MEASURES					
Inhalation	Unlikely due to	Unlikely due to physical form of material.				
Skin Contac						
	use.					
Eye contact	Risk of mechanic	sk of mechanical injury only, wear safety glasses during handling and use.				
Ingestion						
and a second	advice if material is swallowed.					
SECTION 5—	FIREFIGHTING MEASU					
		Not regulated				
Suitable extinguishing		If material is involved in a fire us a dry agent such as carbon				
equipment		dioxide extinguisher or dry chemical powder extinguisher.				
Specific Hazards		May add to the intensity of a fire.				
		May emit fumes if involved in fire.				
		•	Fire fighters should wear positive pressure self-contained			
and precaut	• •	_	breathing apparatus (SCBA) and protective fire fighting clothing			
firefighters	-		(including fire fighting helmet, coast, trousers, boots and gloves).			
	ACCIDENTAL RELEASE			<u> </u>		
Personal pro	ecautions,	Кеер а	way from sources of ignition	and flame.		
-	equipment and		-			
emergency	procedure					
		Please	ease dispose of responsibly. Clean unused sheets can be			
		returne	returned to the manufacturer for recycling.			
		Keep ro	olls strapped and secured or	a pallet.		
containmen	t and cleaning up.					
SECTION 7—	HANDLING AND STORAGE, INCLUDING HOW THE CHEMICAL MAY BE SAFELY USED					
Handling	Avoid mechanical injury to eyes and skin by wearing safety glasses, abrasion resistant					
	gloves and long slee	eve shirt	and trousers.			
	Do not burn or expose the material to excessive heat.					
Storage	Store in a cool dry	ore in a cool dry place out of direct sunlight. Store away from sources of heat or				
	ignition.					

SECTION 8—EXPOSURE CONTROLS AN	ND PERSO	NAL PROTECTION				
Exposure Standard	No exposure standard or limits apply to this material.					
		o biological monitoring is required for this material.				
		ol band is applicable to this material.				
		eering controls are applicable to this material.				
Personal Protective Equipment		sses and abrasion resistant gloves.				
Section 9—Physical and Chemical Properties						
Appearance	<u> </u>	Strap of black plastic				
Odour		Nil when cold				
pH		Not applicable				
Melting point		>200°C				
Flash point		>280°C				
Flammability Limits		Not applicable				
Specific Gravity		0.95 +/- 0.02				
Solubility in water		Not applicable				
Autoignition Temperature		>300°C				
SECTION 10—STABILITY AND REACTIVE	/ITY					
Reactivity	Ma	y add to the intensity of a fire.				
Chemical stability	Thi	is product is stable when stored and used as directed.				
Possibility of hazardous reactions		o known hazardous reactions.				
Conditions to avoid		lames and sources of ignition.				
		Accumulation of electrostatic charge.				
		ng oxidising agents				
Incompatible materials		ata available				
Hazardous decomposition products Carbon monoxide, aldehydes, acetic acid.						
SECTION 11—TOXICOLOGICAL INFOR	MATION	This could delle a be a color of the decrease in a color of				
Acute toxicity		This material has been classified as non-hazardous.				
Skin corrosion/irritation		This material has been classified as non-hazardous.				
Serious eye damage/irritation		This material has been classified as non-hazardous.				
Respiratory or skin sensitisation		This material has been classified as non-hazardous.				
Germ cell mutagenicity		This material has been classified as non-hazardous.				
Carcinogenicity		This material has been classified as non-hazardous.				
Reproduction toxicity	_\	This material has been classified as non-hazardous.				
Specific Target Organ Toxicity (STC	ار ار)-single	This material has been classified as non-hazardous.				
exposure Specific Target Organ Toxicity (STO)T)	This material has been classified as non-hazardous.				
Specific Target Organ Toxicity (STO repeated exposure	J 1 J-	This material has been classified as fion-fiazardous.				
Aspiration hazard		This material has been classified as non-hazardous.				
Aspiration nazaru		Contact with skin during handling or use.				
Possible routes of exposure						
Possible routes of exposure	ynosura					
Early onset symptoms related to e	-	This material has been classified as non-hazardous.				
Early onset symptoms related to e Delayed health effects from expos	ure	This material has been classified as non-hazardous. This material has been classified as non-hazardous.				
Early onset symptoms related to e Delayed health effects from expos Exposure levels and health effects	ure	This material has been classified as non-hazardous. This material has been classified as non-hazardous. This material has been classified as non-hazardous.				
Early onset symptoms related to e Delayed health effects from expos Exposure levels and health effects Interactive effects	ure	This material has been classified as non-hazardous.				
Early onset symptoms related to e Delayed health effects from expos Exposure levels and health effects Interactive effects Mixtures of chemicals	ure	This material has been classified as non-hazardous. This material has been classified as non-hazardous.				
Early onset symptoms related to end belowed health effects from exposions Exposure levels and health effects Interactive effects Mixtures of chemicals Other Information	sure	This material has been classified as non-hazardous.				
Early onset symptoms related to e Delayed health effects from expos Exposure levels and health effects Interactive effects Mixtures of chemicals	sure	This material has been classified as non-hazardous. This material has been classified as non-hazardous.				

Persistence and degradability	Information not available.			
Bioaccumulative potential	Information not available.			
Mobility in soil	Information not available.			
Other adverse effects	Information not available.			
Section 13—Disposal considerations				
Disposal methods	Product can be fully recycled if returned to			
	manufacturer in a clean and unused state.			
	The product is comprised of readily recyclable			
	plastic in Australia and this product should be			
	considered for recycling prior to disposal at			
	landfill.			
Section 14—Transport information				
UN number	Not classified as dangerous goods.			
Proper shipping name or technical name	Brick Strap			
Transport hazard class	Not classified as dangerous goods.			
Packing Group	Not classified as dangerous goods.			
Environmental hazards for transport purposes	Not classified as dangerous goods.			
Special precautions for user	Not classified as dangerous goods.			
Additional Information	Not classified as dangerous goods.			
Hazchem or Emergency Action Code.	Not classified as dangerous goods.			
SECTION 15—REGULATORY INFORMATION				
There are no safety, health or environmental regulations for this material.				
Section 16—Any other relevant information.				
Date of preparation or review	29/10/2019
